MERITOR, INC. SAVINGS PLAN

TABLE OF CONTENTS

Report of Independent Registered Public Accounting Firm

To the Plan Administrator and Plan Participants
Meritor, Inc. Savings Plan

Opinion on the Financial Statements

We have audited the accompanying statement of net assets available for benefits of the Meritor, Inc. Savings Plan (the “Plan”) as of December 31, 2018 and 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2018, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the net assets of the Plan as of December 31, 2018 and 2017, and the changes in its net assets for the year ended December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis of Opinion

The Plan’s management is responsible for these financial statements. Our responsibility is to express an opinion on the Plan’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Plan in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Plan’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Supplemental Information

The supplemental information in the accompanying schedule of assets (held at end of year) as of December 31, 2018 has been subjected to audit procedures performed in conjunction with the audit of the Plan’s financial statements. The supplemental information is the responsibility of the Plan’s management. Our audit procedures included determining whether the supplemental information reconciles to the financial statements or the underlying accounting and other records, as applicable, and performing procedures to test the completeness and accuracy of the information presented in the supplemental information. In forming our opinion on the supplemental information, we evaluated whether the supplemental information, including its form and content, is presented in conformity with Department of Labor’s Rules and Regulations for Reporting under the Employee Retirement Income Security Act of 1974. In our opinion, the supplemental information is fairly stated, in all material respects, in relation to the financial statements as a whole.

/s/ Plante & Moran, PLLC

We have served as the Plan’s auditor since 2007

1. DESCRIPTION OF THE PLAN

The following description of the amended and restated Meritor, Inc. Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General – The Plan is a defined contribution savings plan covering eligible salaried and certain non-union hourly employees of Meritor, Inc. and other affiliated companies (the "Company" or "Meritor"). Eligible employees may participate in the Plan immediately on the date they become employees. The Plan is administered by the Company's Employee Benefit Plan Committee and the Plan Administrator. The trustee for the Plan assets is T. Rowe Price Trust Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employee Contributions – Eligible employees may contribute up to 50% of their compensation by electing to defer receipt of compensation (pre-tax contribution) subject to the limits prescribed under the Internal Revenue Code ("IRC"). Participants can elect to have their contributions invested in 5% increments in various investment funds. The Plan also permits Roth after-tax contributions up to 50% of an eligible employee's compensation subject to the limits prescribed under the IRC.

Eligible newly hired employees are automatically enrolled into the Plan 30 days after their hire date. Employees are enrolled with a default contribution rate of 3% of compensation and may contact the Plan Administrator to opt out or change the election.

Eligible employees who are making contributions that are less than 6% of their compensation are enrolled in automatic escalation. Each December 1, to the extent at least 30 days have elapsed since the participant's eligibility date or since an adjustment was made to their contribution percentage, the participant's deferral percentage is automatically increased by 1% of compensation for each adjustment period until the deferral percentage is 6%. The participant may contact the Plan Administrator to opt out of automatic escalation or can affirmatively elect to continue automatic escalation after reaching the 6% limit, elect the automatic increases at a different amount and/or choose a different adjustment date.

The Plan allows participants who are at least age 50 by the end of the plan year to make additional pre-tax contributions up to the limits prescribed under the IRC.

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. These rollover amounts are recorded in the Participant contributions line item of the accompanying Statement of Changes in Net Assets Available for Benefits.

Employer Matching Contributions – Participants are immediately eligible for matching contributions. The Company matches 100% of the participant's contribution up to the first 3% of eligible compensation deferred and 50% of the participant's contribution on the next 3% of eligible compensation deferred. Company matching contributions are invested according to the investment mix participants have elected for their own contributions.

Employer Pension Contributions – Pension contributions are fully funded by the Company and are made to certain eligible salaried and non-union hourly employees of Meritor regardless of whether they choose to contribute to the Plan ("Pension Contributions"). Pension Contributions range between 2% and 4% of participants' compensation, depending on the participant's age. Pension Contributions are invested according to the investment mix participants have elected for their own contributions.

Participant Accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contributions, the Company's matching contributions, Pension Contributions, and an allocation of Plan earnings, and is charged with withdrawals and an allocation of Plan losses and administrative expenses.

Allocations are based on participants’ account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investments – Participants direct the investment of contributions into various investment options offered by the Plan. The Plan currently offers 23 mutual funds, a common collective trust fund and the Company’s common stock as investment options for participants.

Vesting – Amounts attributable to participant and rollover contributions and employer matching contributions are fully vested at all times. Pension Contributions vest in annual 20% increments beginning with the completion of the participant's second year of service. Participants become fully vested after they reach six years of service. Forfeited Pension Contributions are netted against future employer contributions. For the years ended December 31, 2018 and 2017, forfeitures totaled $1,684,772 and $624,073, respectively.

Plan Withdrawals – Vested amounts contributed may be withdrawn by, or distributed to, a participant only upon (1) termination of employment or (2) attaining the age of 59½. Pre-tax withdrawals prior to attaining age 59½ are not permitted except in the event of retirement, disability or as a hardship distribution. Certain income tax penalties may apply to withdrawals or distributions prior to age 59½. Upon termination of service due to death, disability, retirement or other reasons, a participant would generally receive an amount equal to the value of the participant’s vested interest in their account as a lump-sum distribution or in-kind distribution of Company stock. The Plan was amended in a prior year to allow the vested interest in eligible terminated participants' accounts valued at more than $5,000, to be distributed to participants in a single-sum payment, or in monthly, quarterly, semi-annual or annual installments. If the value of the vested interest in eligible terminated participants' accounts is valued between $5,000 and $1,000, the participant is given the election of either taking a cash distribution or having the payment rolled over directly to an IRA or other eligible plan. If the value of the vested interest in eligible terminated participants' accounts is valued at $1,000 or less, a cash distribution to the participant is made.

Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. T. Rowe Price Retirement Plan Services, Inc., the recordkeeper of the Plan, must approve any such hardship withdrawals.

Participant Notes Receivable – Participants may borrow from their accounts an amount not less than $1,000 and not greater than the lesser of (i) $50,000 less the amount of notes receivable outstanding during the preceding 12-month period or (ii) one-half of the participant’s vested account balance. The notes receivable are secured by the balances in the respective participants' accounts. Participant notes receivable are written off when deemed uncollectible.

Interest is charged at 1% over the prime rate in place at the note receivable origination date, which is defined as the base rate on corporate loans posted by at least 75% of the 30 largest U.S. banks. At year end, interest rates charged on outstanding balances ranged from 4.25% to 6.75%. The notes receivable are repaid through payroll deductions over periods not to exceed 60 months unless they are for the purchase of a primary residence. Payments of principal and interest are reinvested under the participant’s current investment election for new contributions. Participants may have only one outstanding note receivable.

Plan Termination – Although the Company has not expressed any intent to terminate the Plan, it reserves the right to do so at any time. In the event of termination of the Plan, participants with Pension Contribution balances would become fully vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation – The Plan's investments are stated at fair value. Mutual funds and common stock are reported at fair value based on quoted market prices. The common collective fund is valued at net asset value per share (or its equivalent) of the fund, which is based on the fair value of the fund's underlying net assets. The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. See Note 3 for Fair Value Measurements disclosure.

Participant Notes Receivable – Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Security Transactions and Investment Income – Purchases and sales of securities are reported on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis.

Administrative Expenses – Administrative expenses for services required in accordance with Plan provisions are paid by the Plan. All expenses not required by the Plan are paid by the Company. The amounts reported in the financial statements represent administrative expenses paid by the Plan. The Company did not pay any expenses on behalf of the Plan during the year ended December 31, 2018.

Benefit Payments – Benefit payments to participants are recorded upon distribution.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties – The Plan utilizes various investment instruments which are exposed to various risks related to, among other things, interest rate, foreign currency, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements.

Recent Accounting Pronouncements – In August 2018, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2018-13, Fair Value Measurement (Topic 820): Disclosure Framework-Changes to the Disclosure Requirements for Fair Value Measurement. The amendments in this ASU add, modify, and eliminate certain disclosure requirements on fair value measurements in Topic 820. The amendments in this update are effective for all entities for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Certain amendments should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. Others should be applied retrospectively. An entity is permitted to early adopt any removed or modified disclosures upon issuance of this ASU and delay adoption of the additional disclosures until their effective date. The Plan is currently evaluating the potential impact of this new guidance on its financial statements.

3. FAIR VALUE MEASUREMENTS

Accounting standards require certain assets be reported at fair value in the financial statements and provide a framework for establishing that fair value. The guidance provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2018 and 2017 and the valuation techniques used by the Plan to determine those fair values.

- Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.
- Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals.
- Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability.

Investments measured at fair value on a recurring basis at December 31, 2018 are as follows:

	Balance	Level 1
Mutual Funds	$ 380,856,399	$ 380,856,399
Common stock - Meritor, Inc.	41,999,539	41,999,539
Total	422,855,938	$ 422,855,938
Investments measured at net asset value:		
Common collective fund (1)	75,144,490	
Total investments at fair value	$ 498,000,428	

Investments measured at fair value on a recurring basis at December 31, 2017 are as follows:

	Balance	Level 1
Mutual Funds	$ 399,281,953	$ 399,281,953
Common stock - Meritor, Inc.	60,170,232	60,170,232
Total	459,452,185	$ 459,452,185
Investments measured at net asset value:		
Common collective fund (1)	69,515,294	
Total investments at fair value	$ 528,967,479	

(1) This class represents investments in the T. Rowe Price Stable Value Common Trust Fund (“Stable Value Fund”) that invests primarily in guaranteed investment contracts, separate account contracts, fixed income securities, wrapper contracts, and short-term investments. Stable Value Fund units may be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals permitted by the Plan. Under the terms of the Stable Value Fund’s agreement, the Plan is required to provide advance written notice to T. Rowe Price Trust Company prior to full redemption of the Stable Value Fund. There were no unfunded commitments with this class.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2018 and 2017.

4. TAX STATUS

The Internal Revenue Service (IRS) originally determined and informed the Company by a letter dated October 4, 2010, that the Plan was designed in accordance with applicable sections of the IRC. Effective January 31, 2014, the Plan was amended and restated using a volume submitter plan document. A volume submitter plan does not require an application for a determination letter from the IRS. The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter since the January 31, 2014 amendment and restatement date. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2015.

5. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by T. Rowe Price Trust Company. T. Rowe Price Trust Company is the trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.

At December 31, 2018 and 2017, the Plan held 2,483,710 and 2,564,801 shares, respectively, of common stock of Meritor with a fair value of $41,999,539 and $60,170,232, respectively. During the year ended December 31, 2018, the Plan recorded no dividend income from common stock of Meritor.

6. RECONCILIATION TO FORM 5500

The net assets on the financial statements differ from the net assets on the Form 5500 due to an adjustment to fair value for the common collective trust fund being recorded on the Form 5500. The net assets on the financial statements were higher than those on the Form 5500 by $1,555,925 and $438,942 at December 31, 2018 and 2017, respectively. Additionally, the decrease in net assets on the Form 5500 for the year ended December 31, 2018 is higher than that on the financial statements by $1,116,983.
